Guidelines for Self and Peer Assessment for CEL Work (Please read carefully!): Using the following scale, you are to assign a contribution mark for each group member (including yourself) for each aspect of group functioning listed in the table. You are judging the performance of yourself and others in your group and the other group members are judging your performance. This feedback will be used to adjust your final grade for the CEL work. Note, if all members contribute the same in a particular category, then you may assign a 2 to all group members for that category, **but you may NOT assign a 3 to all group members.**
